Laminate flooring

Vinyl flooring

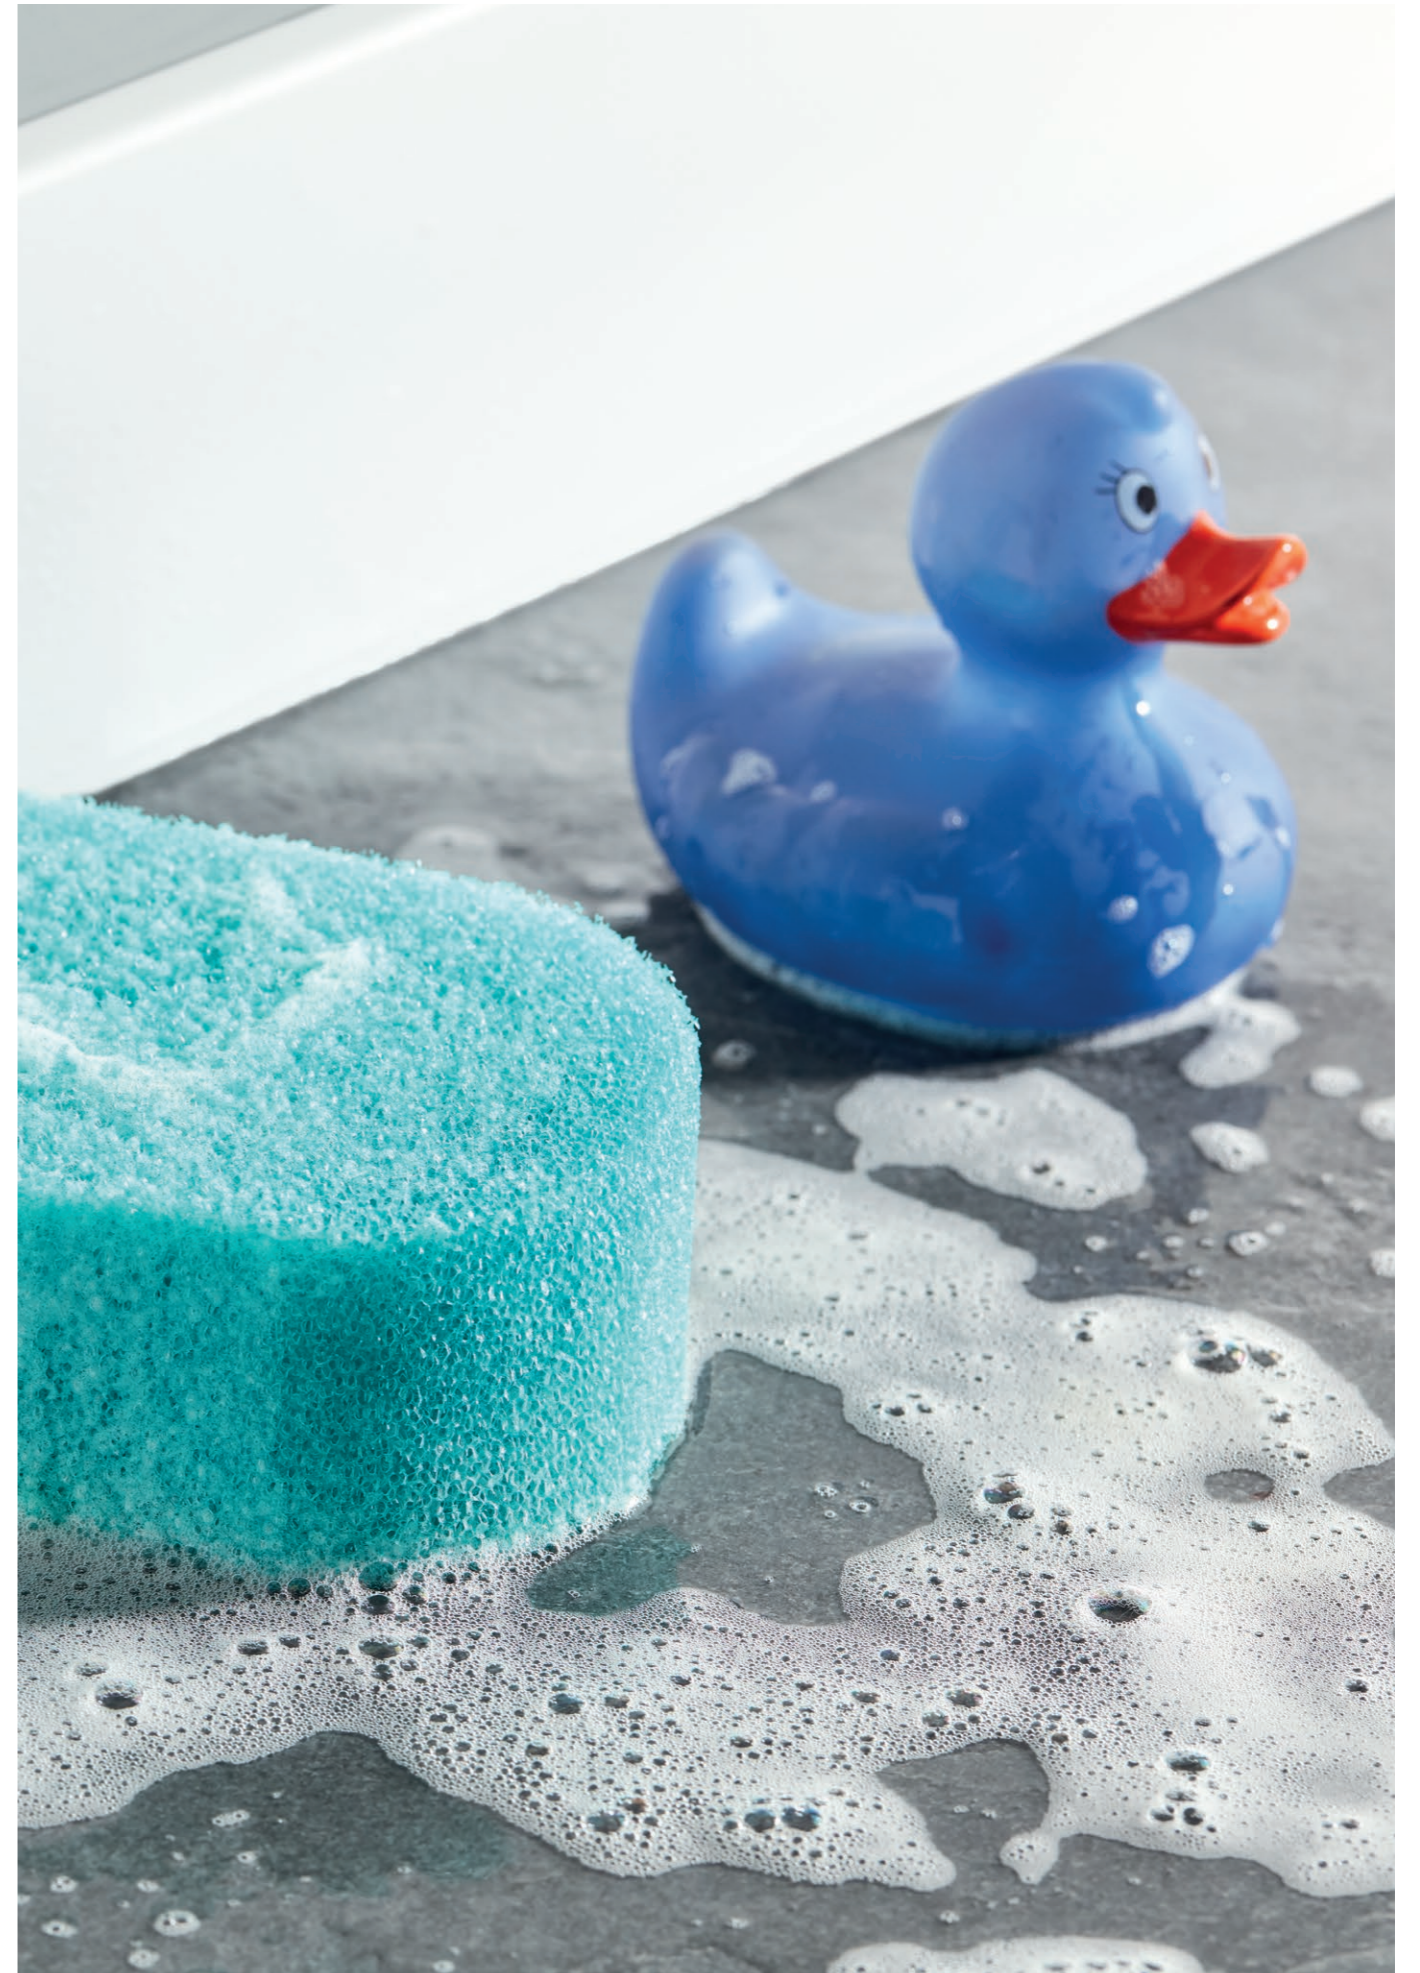

Wood flooring

LVT flooring

Comfort of use in the rooms exposed to moisture

The skirting boards made of extruded polystyrene are suitable to assembly in the kitchen or bathroom.

Durability guarantee

The INTENSE® skirting boards are resistant to the scratches and bumps. They are characterized by high density, therefore, they don't warp.

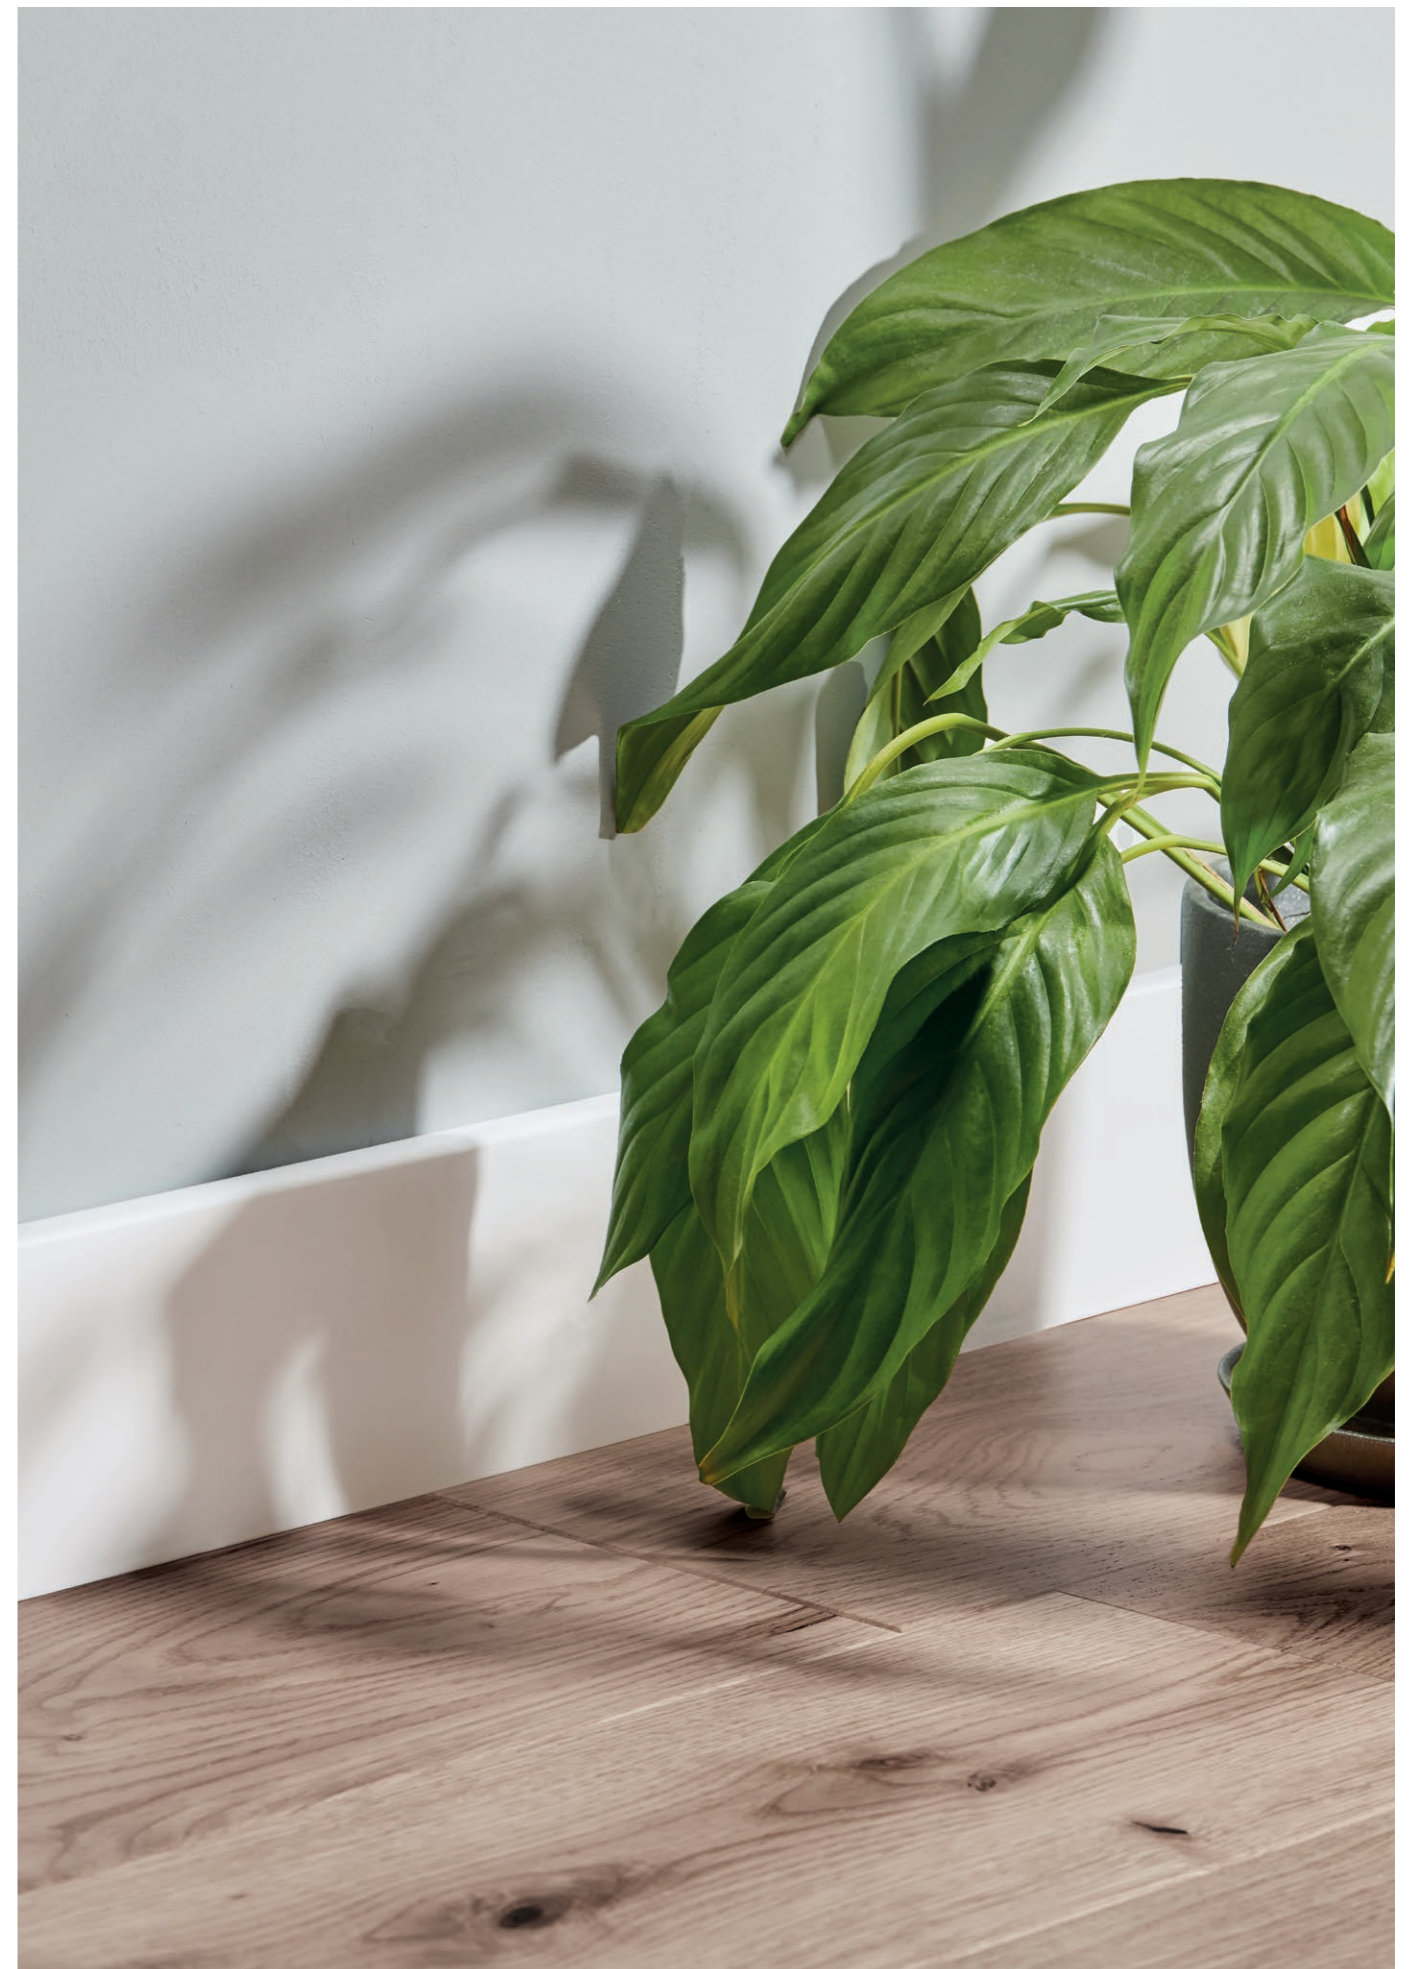

Years of peace!

Are you going to use the skirting boards in sunny house interior?

Are you worrying about discoloring?

No worries!

The INTENSE® skirting board is a product fully protected from UV lighting.

Easy to upkeep

The INTENSE® skirting boards are covered with a layer that protects from excessive dust. You only have to clean them with using mild cleaning products.

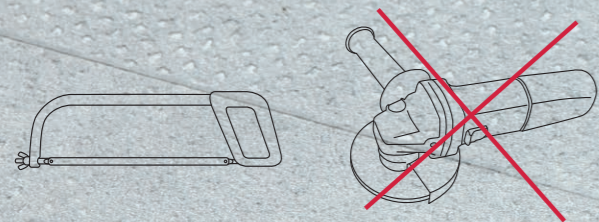

Do you care about the environment? So do we!

You can feel certain that INTENSE® skirting boards are and can be used again in the recycling process.

Easy to trim

You can cut the skirting board by using the hand saw with thinner blades.

Installation on your own?

You will do it fast and without any problems.
Choose the best way for you.

With clip

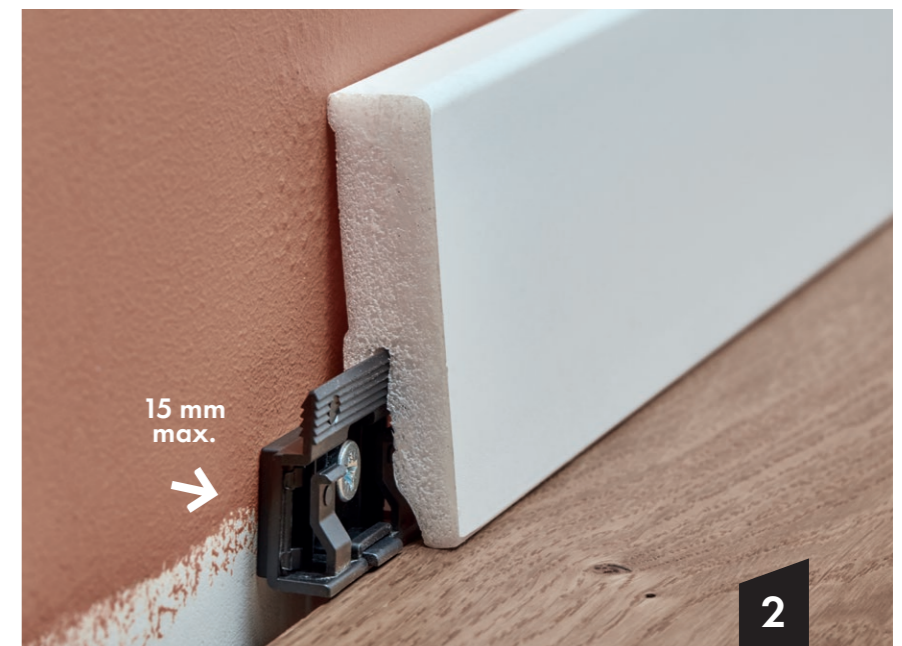

Screw the clip to the wall with a screw and put a skirting board on it.

You can always remove the skirting board from the clip and put it on again.

With clip and leveling spacer

The leveling spacer allows the down section of skirting board to be moved away from the wall by an additional 3 mm, which allows up to 15 mm of the expansion joint to overlap.

With glue

Traditional and the quickest way to assembly.
